in my heart they can ne-ver quench the flame. I have a song to sing
Though win-ter nights are cold
When dark-ness came a-long
I have a form to sculpt
Time to go heal the hurt
This is not just for me

11 Am

Words that must flow out Though there's snow and wind Good folk stoked the fire me-tal to be shaped Care for war-riors sick Hope that must flow out
Notes that must come forth Rea-dy in the dark Showed the path of light im-age of her strength Lift up those who fall Warm my neigh-bor's homes
tunes that have to Stea-dy through the hard Walked the long hard torch held up so Brew to warm the Save my peo ple's

16 Bm Em

sound night road bright soul lives I have a song to sing Bun-dled up in my wool They took that in-ner fire Stand-ing up on that isle I have a life to save Work with all those a-round
While I have a voice Stan-ding guard out-side Shel-tered all who came Ligh-ting all the way One who needs my hands Pass light to your town

21 Am Bm Em

Lept from the heart's warm fire out in-to the air
Warm from the heart's bright fire I will fear no ice.
Life from the heart's strong fire Springs right out to birth.
Sign from the heart's red fire Li-ber-ty shines forth.
Warm from the heart's kind fire From my voice to all.
Strength from the heart's hot fire Shared be-tween us all.
